

Who are the Gentiles?

Abraham → Isaac → Jacob (Israel) → 12 sons forming Hebrew Nation (Jews)
 → Ishmael and 6 other sons by Abraham. (Or, the Gentile seed of Abraham.)

Abrahams Neighbors → The Question is: Are the seed not of Abraham also Gentiles???

The world is full of people offering their opinion about who the Bible is talking about when it says our Creator reconciled both the Jews and Gentiles to himself (as his sons and daughters) through their faith in Christ Jesus. (Eph 2:11-22) The question some people ask is whether the children of those who were neighbors and contemporaries of Abraham, many of them being pagan worshippers, are also Gentiles; along with the non-Israelite children of Abraham. While many are quick to assert they know that answer, I have never read anything to make me believe any person does know. The promise to Abraham, however, was that “all” nations of the earth would bless themselves by means of Abraham’s seed (the primary seed of Abraham being Christ Jesus, of course). (Gen 22:15-18) Be careful of the judgment you render against others by your faith.
